Unity Hub is a helper program that, when installed, allows you to download and install the Unity game engine. It is also used to update the environment to the latest version.

Unity Hub - rejestracja

Installation of the Unity environment requires free registration (Unity ID), during the first launch you must log in to use it.

The screenshot shows a web browser window titled "Unity Hub Sign In". The main heading is "Create a Unity ID". Below the heading, there is a link: "If you already have a Unity ID, please [sign in here](#)".

The registration form consists of the following fields and options:

- Email
- Password
- Username
- Full Name
- I have read and agree to the [Unity Terms of Service](#)(required).
- I acknowledge the [Unity Privacy Policy](#) [Republic of Korea Residents agree to the [Unity Collection and Use of Personal Information](#)](required).
- I agree to have [Marketing Activities](#) directed to me by and receive marketing and promotional information from Unity, including via email and social media(optional).

At the bottom of the form is a large blue button labeled "Create Unity ID".

Below the button, there is a horizontal line with the text "OR" in the center. Underneath this line are four social media icons: Google, Facebook, Apple, and a generic user icon.

Unity Hub - licencja

The screenshot shows the Unity Hub 2.4.2 interface. The top left corner displays the Unity logo and the version number. The top right corner shows a notification for 'Hub 2.4.3 Available' and a user profile icon labeled 'Mi'. The main content area is titled 'Projects' and contains a table with the following data:

Project Name	Unity Version
